RESEARCH

Working papers

The COVID-19 Shock to Primary Education: Cross-Cohort Evidence from Ukraine's State Monitoring Programme

- Learning losses from COVID-19 school closures, using national assessments. SSRN, 2025

The Gender Gap in Upper-Tail Math Achievement: Evidence from Ukraine

- Boys outnumber girls 3.9 to 1 at the 99.9th percentile of the national math exam. PDF, 2026

Work in progress

Who Left and Who Stayed: Displacement, Selection, and Brain Drain in Wartime Ukraine

- Which students emigrated or were internally displaced after the 2022 invasion.

Schools and High Math Achievement: Evidence from Ukraine

- Whether school differences in producing top math achievers reflect environments or selection.

Compulsory Mathematics and STEM Access: Evidence from Ukraine

- Compulsory math raised STEM applications, but more for men, without narrowing the gender gap.

Comparative Advantage and the Gender Gap in STEM

- How much math-versus-language comparative advantage explains the STEM application gap.
